M&E Software for Informed Decision Making

A Comprehensive Software for M&E:
Streamlining Data for Maximum Impact

www.delta-monitoring.com

The background image shows a professional meeting. On the left, a woman with blonde hair is seated at a wooden desk, looking at a tablet. In the center, a man in a grey blazer stands and points towards a whiteboard. On the right, another man with glasses is seated, gesturing with his hand. Two laptops on the desk display bar charts. The overall scene is a collaborative work environment.

DELTA, the right tool for Monitoring, Evaluation & Learning

Delta is a powerful cross-platform monitoring and evaluation software for Project Management, Coordination Units, NGOs, Public Institutions, International Development Agencies, and Individual or Corporate Consultants.

Our state-of-the-art M&E software is the ultimate tool for managing and measuring the success of your projects and programs.

Delta makes it easy to track progress, identify areas for improvement, and make data-driven decisions.

DELTA, a premium M&E software, promotes transparency, accountability, and enhanced decision-making, drawing on our extensive expertise in management and information systems development.

Complete Solution

DELTA allows to easily manage your Portfolio and to track project and program performance whatever their size (local, national, or international). Its modular design and the great flexibility make it a first-rate tool to perfectly meet all M&E needs.

Impact Management

Advanced reporting and analytics capabilities allow you to create detailed reports and analyze data. Delta helps you understand the impact of your projects and programs and make informed decisions based on the data.

Results Learning

Easily set up and track key performance indicators (KPIs) for your projects and programs, giving you real-time visibility into progress and performance. Quickly identify areas that need attention and adjust as needed to ensure success.

Collaborative

Real time collaboration at all levels with multiple built-in tools such as an Agenda, Chat and Mailing system. Document, manage and share success stories with our integrated Document & Media repositories

High Performance

Achieve high performance through in-depth reporting on progress and results. The data is illustrated in visually stunning graphs and images – making it easier for you to make use of the insights.

Cost Efficient

DELTA is scalable. With more than 10 years of experience in the field, our team can add specific modules for a complete solution to meet all your needs. Maximize value with an enhanced return on investment (ROI).

Fast Deployment

DELTA is available as a Software as a Service and can also be deployed on your servers. Each version uses the best of the technologies specific to its environment.

User friendly

DELTA is an ergonomic open system, with an intuitive, multilingual, and easy-to-use interface.

Security

DELTA offers robust security features to protect sensitive information from unauthorized access in accordance with user tracking (audit trail) and access rights adaptable to your organization. DELTA ensures compliance with data protection regulations and international standards for the management of private information.

Features

1. Portfolio

An intuitive and attractive platform allows you to see a centralized, at-a-glance view of all ongoing initiatives, making it easy to monitor progress, assess performance, and identify trends across the entire portfolio.

- Store an unlimited number of projects and programs
- Compare and analyze multiple initiatives within the portfolio
- Consolidated information to enable data-driven decision-making, strategies alignment, resources allocation, and refinement of objectives.
- Multiple views and customized dashboards are available to generate customized reports that highlight key performance indicators (KPIs) and demonstrate the impact of initiatives
- Interactive maps, metrics and more...

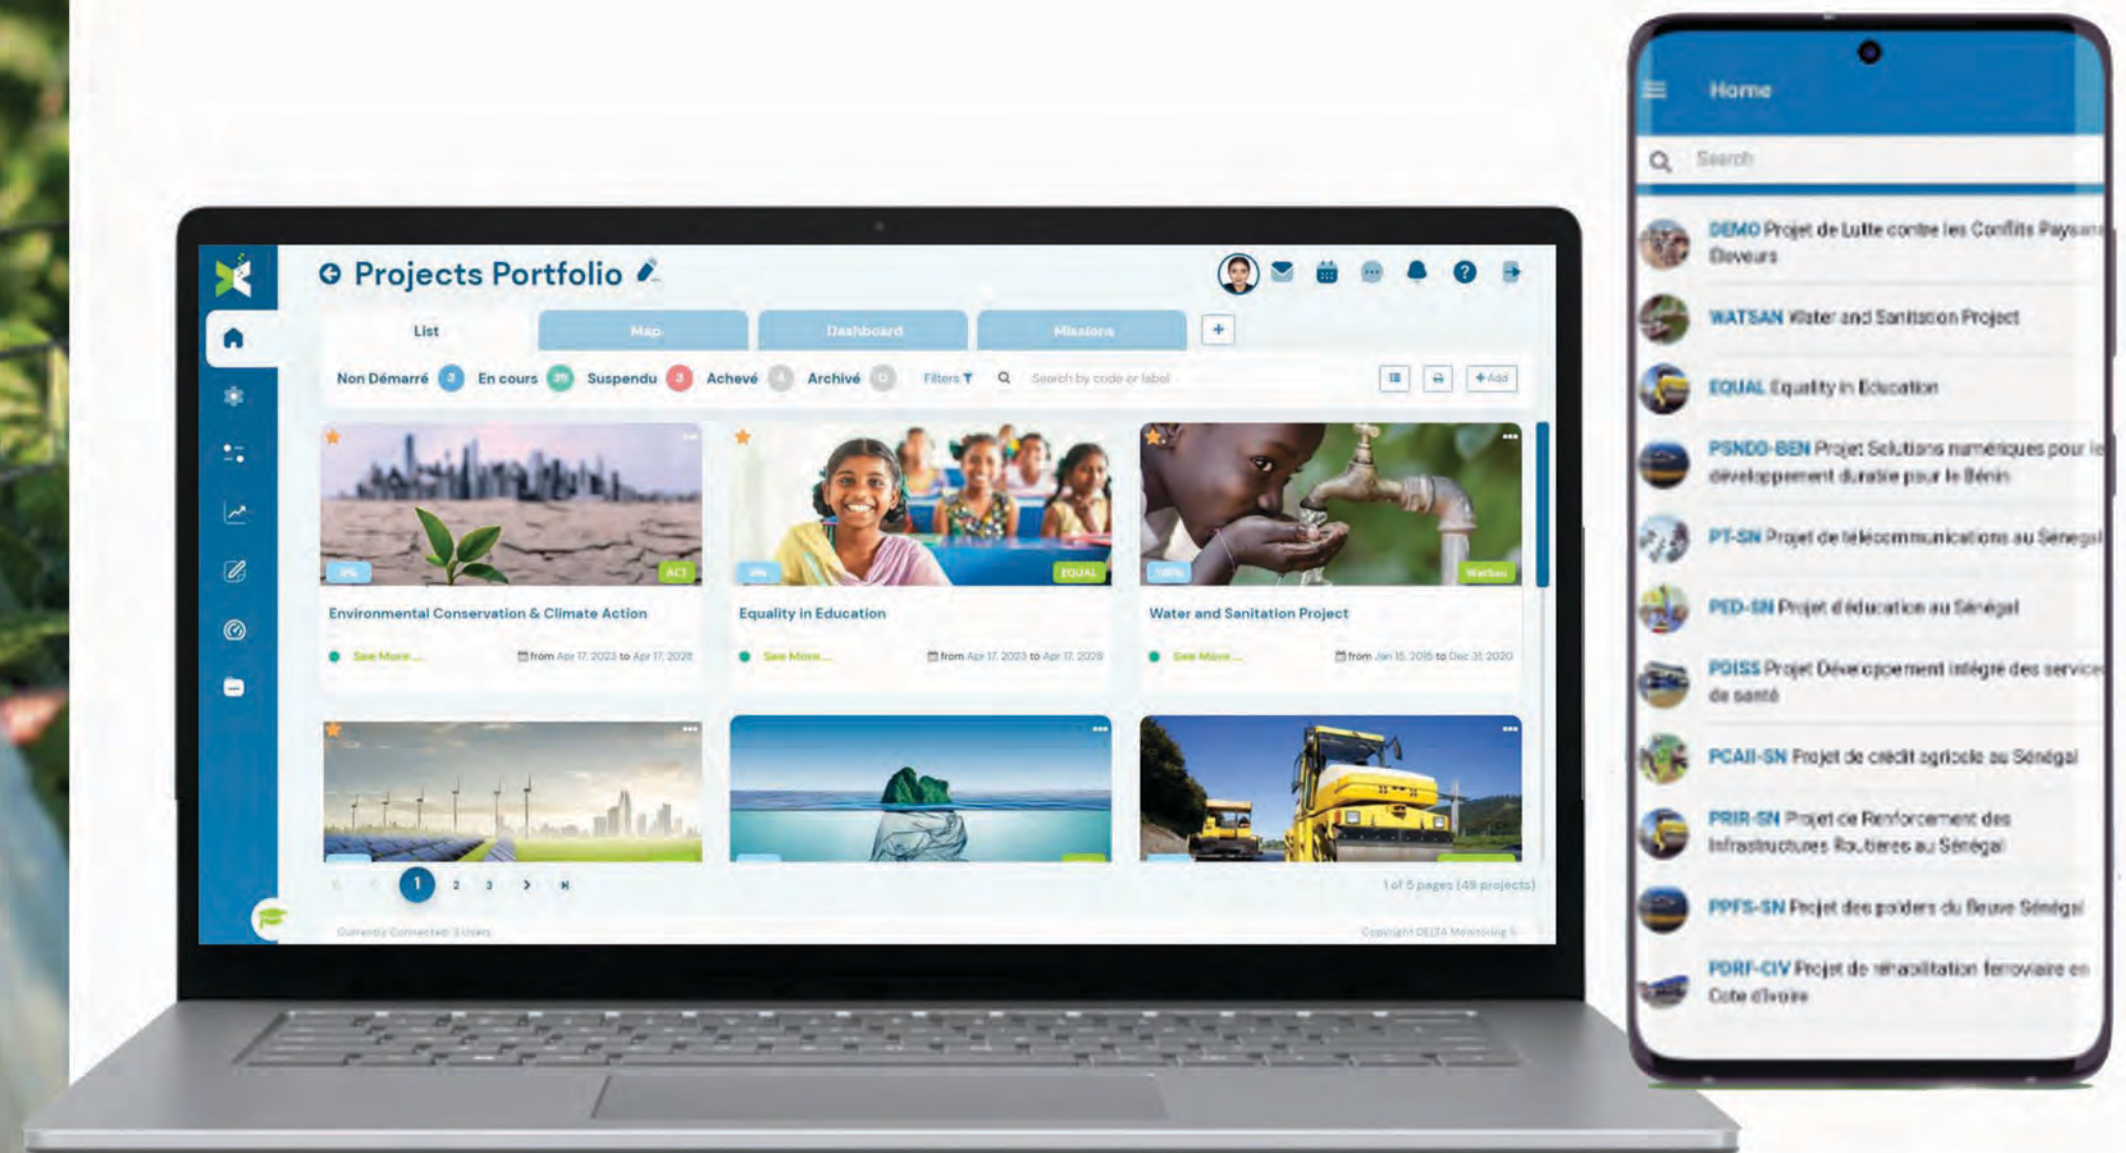

The Portfolio is divided into the navigation menu on the left to access the various modules of DELTA and the main viewscreen.

The Portfolio dashboard presents the projects or programs with their associated image, a progress summary, statuses, start and end dates, as well as level of completion.

Several portfolio views such as the list view, the map and dashboards allow to fine tune initiatives by sector(s), implementing agencies, location(s), or funding sources.

From the Portfolio level, you will be able to quickly access relevant information and gain insight into various initiatives instantaneously.

The Portfolio represents an additional level within Delta to allow you to create cross-cutting indicators and manage similar initiatives.

2. Management

A comprehensive suite of tools enables you to get a fresh perspective and simplify your management. Prioritize resources and maintain their optimal utilization by streamlining your processes and providing valuable insights, DELTA empowers you to make data-driven decisions.

- **TIMELINE WITH MILESTONES.** Monitor performance and make timely adjustments to improve outcomes.
- **ACTIVITIES TRACKING.** Schedule and allocate resources (including personnel, budgets, and materials), ensuring activities are executed efficiently and within budget.
- **CUSTOM REPORTS AND ANALYSIS.** Built-in tools for generating tailored reports and performing in-depth data analysis, providing valuable insights into performance, trends, and areas for improvement.
- **FINANCIAL MANAGEMENT.** Track expenses and financial performance to make informed decisions and maintain control over costs.
- **WORKFLOW AND PERMISSIONS.** Streamline staff reporting and communication, enhance accountability and improve collaboration.

The Management Module is your one stop for all that is related to the planning, monitoring and evaluation of your project or program and activities.

An overview of your initiative's status with all relevant information displayed (summary, progress, charts, etc.). Instant information with real-time data and appropriate graphics.

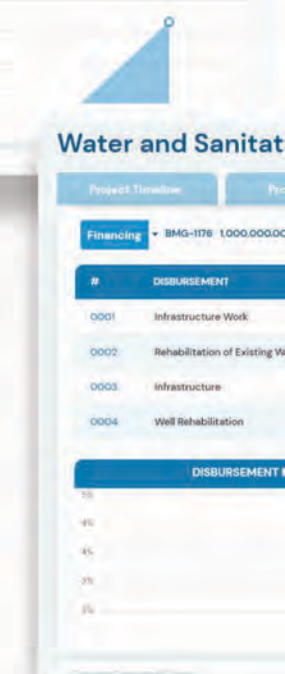

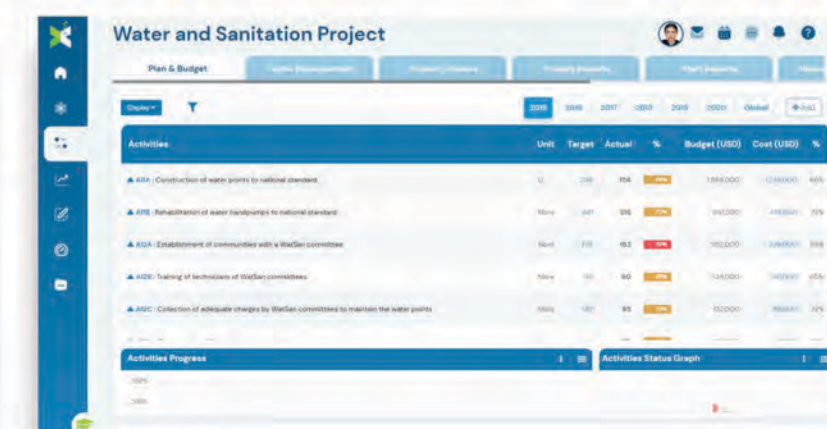

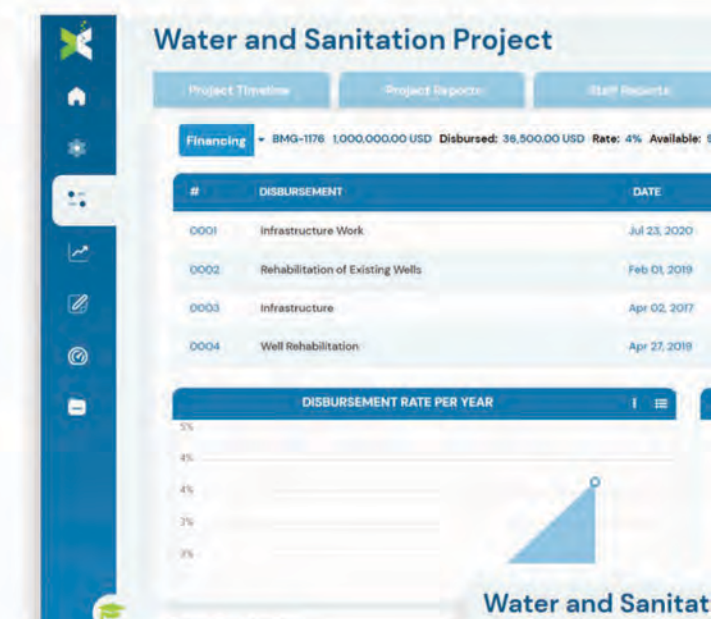

The module features graphs and tables for the activities and financial data shows budget performances.

Each activity or task is fully configurable with its associated automated reports and dashboard

DELTA offers the flexibility to plan and monitor activities with a different periodicity, to assign various weights to activities based on budget, actual cost, etc.

User can select up to three (3) levels of physical and financial planning: Global or multi-year planning, Annual Work Program and Budget (AWPB) and short-term planning (Semester, Quarter, Month, etc.).

The Indicators Module is flexible to meet your organization’s needs. Easily establish a logical hierarchy of objectives, outcomes, outputs, and activities, providing a coherent roadmap for execution. Compare and monitor indicators, track progress, and visualize your Results Framework. Accurately and efficiently monitor the evolution of indicators from baseline to final targets. Delta features several built-in reports and dashboards for indicators to show a high-level summary of your results.

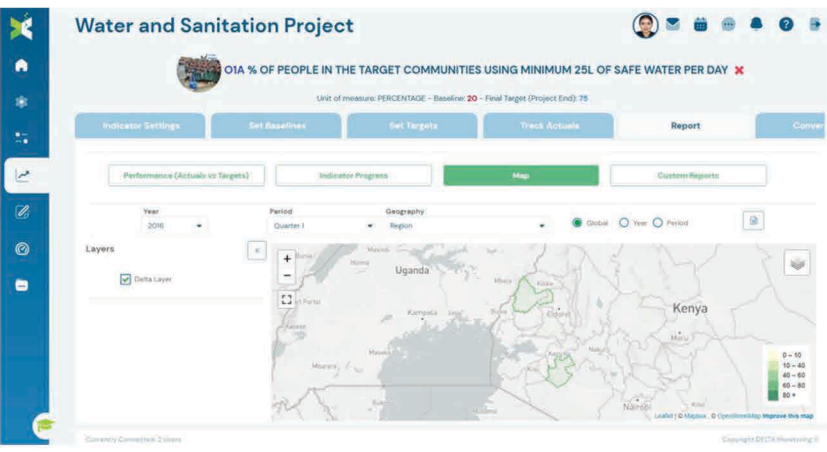

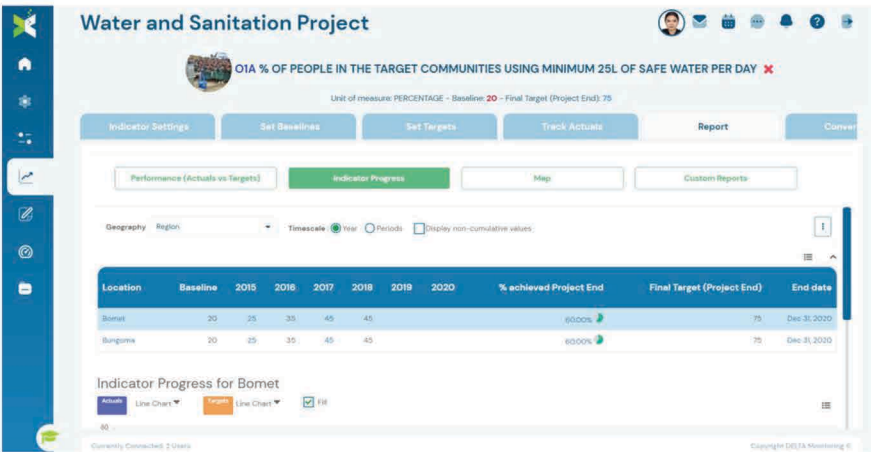

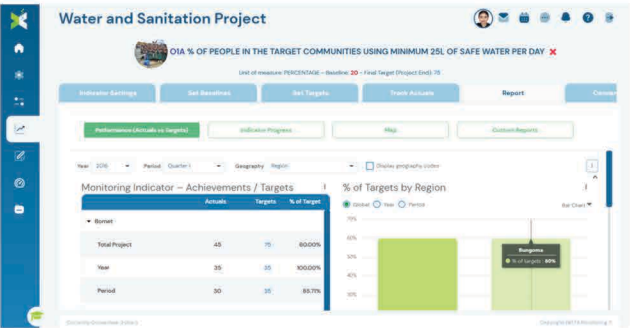

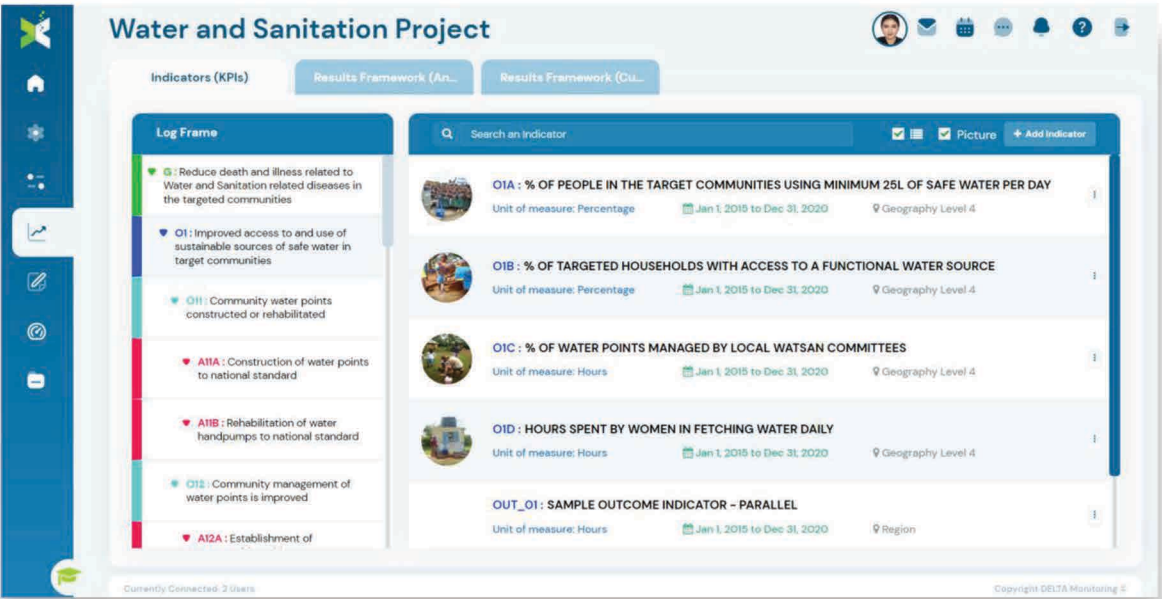

The Indicators Module in Delta consolidates all the functionality of the indicators in one convenient place. Easily track, collect, and aggregate indicators data

A special Indicators Calculator is included to enter your various formulas for indicators.

3. Indicators

DELTA is ideally suited for all types of M&E systems and operates through the Logical Framework, Results-Based Management, or other methods.

- **HASSLE-FREE SETUP:** Get started in no time with our user-friendly interface
- **COMPREHENSIVE INDICATOR SUPPORT:** Manage a diverse range of indicators, including simple, quantitative, qualitative, complex, and aligned, with ease
- **SEAMLESS PROGRESS TRACKING:** Monitor the evolution of your indicators from initial baselines to final targets, ensuring your projects stay on track
- **POWERFUL ANALYTICS:** Unleash the potential of your data with advanced analysis and visualization tools, delivering insights that drive informed decision-making and impactful results

4. Data Collection

A comprehensive Data Collection module, designed to effortlessly cater to the needs of M&E professionals. Easily create simple or complex data collection forms using predefined fields (text, lists, dates, numbers, scores, GPS coordinates, etc.).

- **ALL-IN-ONE DATA COLLECTION SOLUTION:** Experience the power of a complete data collection suite at your fingertips.
- **FORM DESIGN MADE EASY:** Effortlessly design forms tailored to your unique project requirements.
- **UNINTERRUPTED DATA COLLECTION:** Collect data both online and offline, ensuring seamless operation in any environment.
- **CREATE CUSTOM REPORTS AND ANALYZE DATA:** Generate tailor-made reports and unlock the full potential of your data with in-depth analysis.

A dedicated module simplifies the process of gathering data from various sources.

DELTA allows you to create tailored forms or import from various sources, enabling efficient and accurate data collection.

Both online and offline modes are available to ensure seamless operations, even in areas with limited or no internet connectivity.

Sensitive information is securely stored and protected in our system, complying with data privacy regulations, and safeguarding the interests of your project stakeholders.

Centralized data storage enforces easy access to collected information. Team members with granted access rights can collaborate more effectively, sharing insights and working together to analyze and interpret data.

Easily share your forms with external users and benefit from extra security with single time access.

The screenshot shows the 'SAMPLE DATA COLLECTION FORM' interface. It includes a sidebar with navigation icons, a top bar with the project name and user profile, and a main content area with tabs for 'Edit Form', 'Collect Data', 'Review Data', and 'Analyze & Report'. The 'Edit Form' tab is active, showing fields for 'Form Name', 'Description', and a list of 'Fields' with their respective data types and unique identifiers.

The screenshot shows the 'PROJECT BENEFICIARIES' interface. It includes a sidebar with navigation icons, a top bar with the project name and user profile, and a main content area with tabs for 'Edit Form', 'Collect Data', 'Review Data', and 'Analyze & Report'. The 'Analyze & Report' tab is active, showing a list of beneficiaries with columns for 'Age of Beneficiaries (sorted by sex)', 'Map of Beneficiaries - Filter: Niger', 'Beneficiaries by Age and Number of Children', and 'Beneficiaries Pie Chart Report'.

The screenshot shows the 'NEW WATER POINTS SURVEY' form. It includes a sidebar with navigation icons, a top bar with the project name and user profile, and a main content area with tabs for 'Edit Form', 'Collect Data', 'Review Data', and 'Analyze & Report'. The 'Collect Data' tab is active, showing a 'Section 1' with fields for 'Date of Collection', 'Location of Collection', 'Name of Interviewee', 'Age of Interviewee', 'Sex of Interviewee', and a question 'Are you aware of the new water points in your region?'. A 'Save' button is at the bottom.

5. Dashboards

Designed to provide a comprehensive overview of your project's or program's status through visually appealing displays. Find all the relevant information at your fingertips, from summaries and progress charts to in-depth dashboards specific to activities and indicators.

- **CUTTING-EDGE TRACKING AND VISUALIZATION TOOLS:** Harness the power of analytics that bring your data to life.
- **REAL-TIME AND VISUALLY ENGAGING INSIGHTS:** Stay informed with up-to-the minute data, presented through captivating graphics.
- **INTERACTIVE MAPS AND SPECIALIZED DASHBOARDS:** Explore advanced interactive maps, activities, and indicators dashboards for a detailed understanding of your performance and impact.

The dashboards within DELTA allow you to analyze your most up-to-date data with graphs and charts, providing a visually engaging way to access and evaluate data.

Dashboards provide a snapshot of key metrics and performance indicators, allowing users to quickly assess the status and progress of their projects or programs.

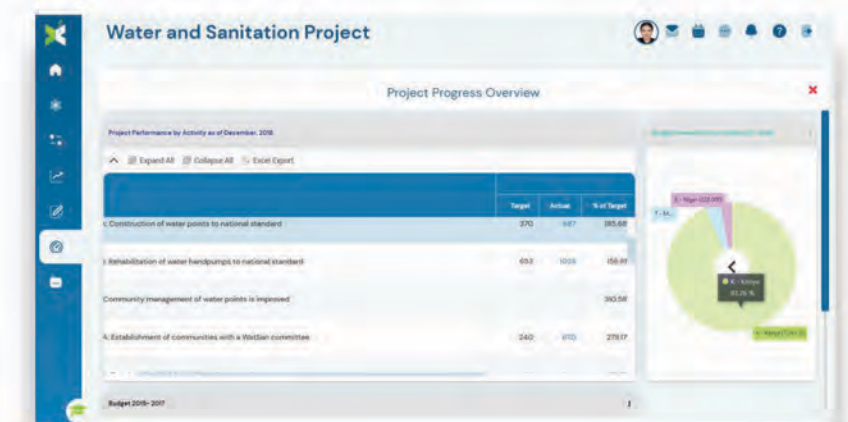

The ability to create custom dashboards tailored to specific needs or stakeholder requirements allows organizations to present the most relevant and meaningful information, bringing transparency and truth to all stakeholders.

All pertinent information is regrouped in one place so users can quickly identify trends and patterns.

Easily export Charts and Graphs or share them within the system to other team members.

DELTA generates all kinds of dashboards and reports for activity monitoring, budget monitoring, and indicator analysis, from the simplest to the most complex.

6. Learning & Knowledge Sharing

Cultivate a rich knowledge base filled with diverse resources that empower continuous learning and improvement.

- **FOSTER KNOWLEDGE SHARING AND COLLABORATION:** user-defined Communities of Practice and other users can exchange insights, best practices and ideas.
- **BUILD UPON SUCCESS STORIES:** celebrate achievements and chronicle your success stories to revisit past accomplishments and draw inspiration
- **SHOWCASE MULTIMEDIA:** Share high-resolution images and videos that capture the essence of your projects and programs
- **STREAMLINED KNOWLEDGE MANAGEMENT:** Effortlessly manage documents and files with intuitive folder structures

The Learning and Knowledge Sharing Module allows to organize and store data.

Easily access and navigate relevant information.

Learn from past experiences and adopt best practices to enhance management and M&E processes.

Facilitate knowledge sharing to encourage the development of new ideas, approaches, and solutions.

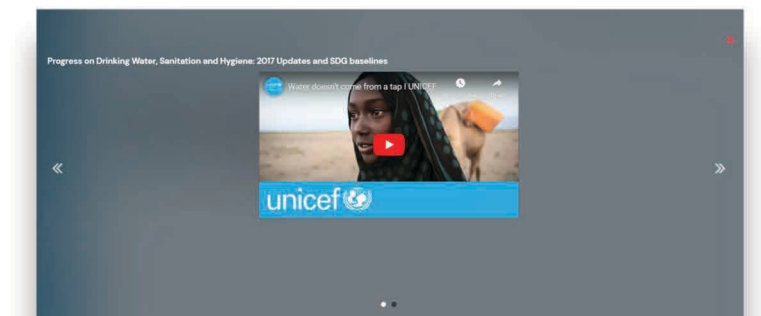

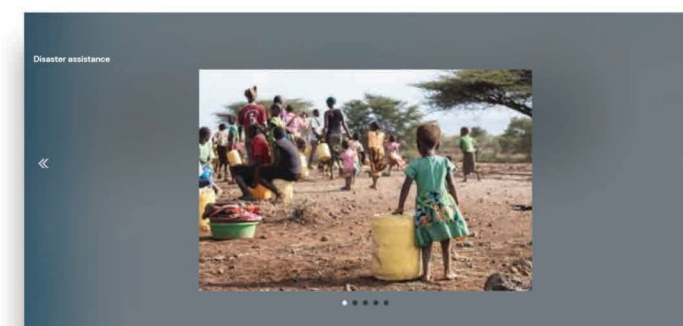

Support the professional development of staff members, enhancing their skills and expertise.

Create Communities of Practice for knowledge sharing to promote communication and collaboration among team members.

The screenshot displays a web application interface for a 'Water and Sanitation Project'. The top navigation bar includes tabs for 'Documents', 'Photos', and 'Videos'. The main content area features a document titled 'The National Water Services Strategy (NWSS)'. To the left of the document details is a thumbnail image of a person drinking from a water tap. Below the thumbnail are 'Download' and 'Share' buttons, and a status bar showing 'Views (17)' and 'Downloads (1)'. To the right of the thumbnail is a 'Document data' table with the following information:

Document data	
Title	The National Water Services Strategy (NWSS)
Author(s)	Republic of Kenya - Ministry of Water and Irrigation
Published Date	2017-06-01
Language	English
Contact (email or website)	https://www.water.go.ke/

Below the table is a 'Summary' section with the text: 'Water is the most important natural resource, indispensable for life and at the same time the backbone of growth and prosperity for...'. The interface also shows a sidebar with navigation icons, a top right corner with user profile and notification icons, and a footer indicating 'Currently Connected: 2 Users' and 'Copyright DELTA Monitoring ©'.

7. User Management & Security

DELTA gives you the flexibility to control your data to provide a seamless, secure, and efficient M&E experience, empowering you to focus on achieving meaningful impact

- **SET USER PROFILES AND PERMISSIONS:** Customize user profiles and permissions to optimize collaboration and protect sensitive information
- **AUDIT TRAIL:** Ensure transparency and accountability throughout all initiatives
- **SAFEGUARD YOUR DATA:** Rely on our Data Deletion Recovery to protect your valuable information from accidental loss
- **AND MORE:** Enjoy advanced security settings that prioritize the integrity and confidentiality of your data

Customize the platform to your specific needs to ensure efficient and secure management, providing a more enjoyable user experience.

By setting user profiles and permissions, you can optimize team collaboration while protecting sensitive information and maintaining data integrity.

Advanced security settings in the module help ensure that data remains secure, confidential, and compliant with relevant organizational regulations.

DELTA promotes transparency and accountability, allowing organizations to track changes and maintain accurate records.

Assign workflows, set up permissions to modules, locations, etc

The image displays three screenshots of the DELTA platform interface, specifically the 'Water and Sanitation Project' module.

Top Screenshot: ADMINISTRATION - Users

This screen shows the user management interface. It includes tabs for 'Users', 'Groups', 'Communities', 'Access Log', and 'Deleted Items'. The 'Users' tab is active, displaying a form to create or edit a user profile. The form includes fields for Email (SUPERVISEUR), First Name (Mariam Evelynne), Last Name (KIMUTAI), Function, Implementing Agency (Planning Institute of Kenya), Expiry Date (12/01/2023), Password, and Confirm Password. There is a 'SuperUser' checkbox and a 'Change photo' button. A sidebar on the left contains navigation icons, and a top bar shows the user's profile and various system icons.

Bottom Left Screenshot: ADMINISTRATION - Communities

This screen shows the 'Communities' tab, which displays a list of communities. The table has columns for Name, Description, Locations, Log Frame, and Users. The 'Log Frame' column is highlighted in green. The table lists several communities with their descriptions and associated locations.

Bottom Right Screenshot: Workflow

This screen shows the 'Workflow' tab, which displays a table of workflows. The table has columns for Location, Period, Targets, Budget, Planned Date, and Alert Date. The 'Targets' column is highlighted in blue. The table lists two workflows: 'Old - hours spent by women in fetching water daily' and 'New - hours spent by women in fetching water daily'.

Our GIS Mapping enables users to present complex data in a visually engaging and accessible format.

By overlaying different data layers on a map, users can identify patterns, trends, and relationships that might not be apparent in traditional data tables or charts.

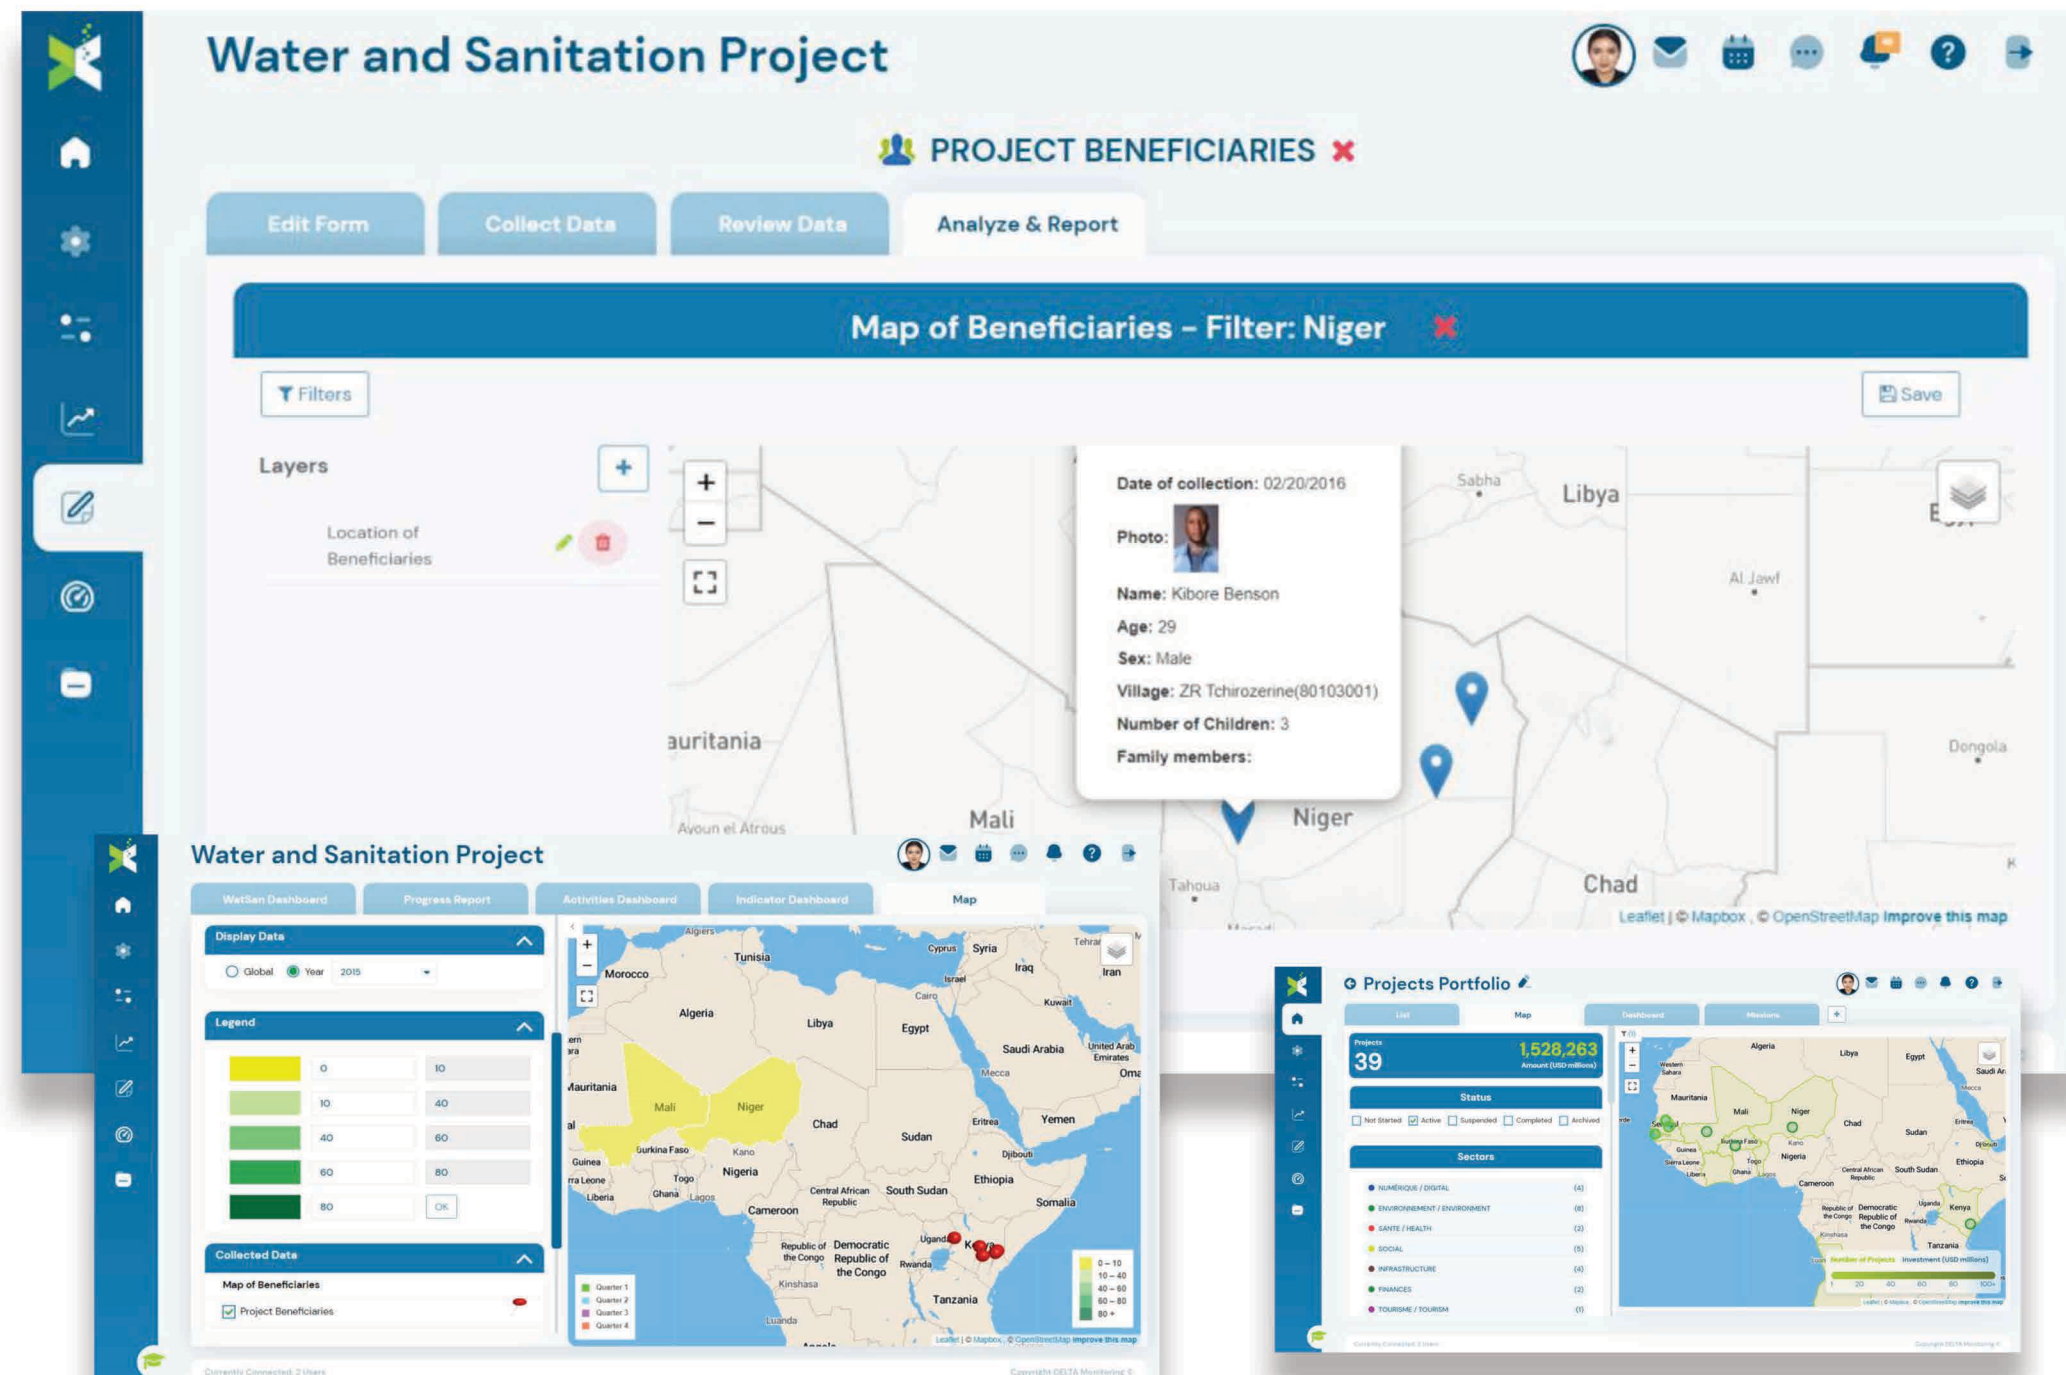

Accurate mapping (of locations, beneficiaries, achievements, activities, etc.) can provide a better assessment of the impact and reach of interventions.

Significantly enrich your data visualization with spatial analysis for improved decision-making.

8. GIS mapping

State-of-the-art data mapping and visualization features, designed to provide extensive analysis capabilities and multi-layered insights

- **PINPOINT PRECISION:** Accurately geolocate beneficiaries and achievements for a comprehensive understanding of your impact
- **SPATIAL CLARITY:** Visually engaging spatial representations of data (indicators, activities, etc.)
- **MAP OUT ROADS OR TRACKS**

9. And More Collaborative Tools

Foster a connected and efficient work environment that drives success with built-in collaboration tools.

- **STAY CONNECTED:** Engage within the Community Newsfeed, where updates and insights are shared in real-time
- **SYNCHRONIZE YOUR EFFORTS:** a Shared Calendar to effortlessly coordinate events and deadlines
- **STREAMLINE COMMUNICATION:** a unified Mailbox that keeps all your important messages in one accessible location
- **STAY INFORMED:** Rely on timely Alerts to ensure you never miss critical updates or milestones
- **EMBRACE DIVERSITY:** Break down language barriers with our versatile Multilingual support

Built-in messaging, newsfeeds, and alerts facilitate real-time communication and information sharing among team members.

Our collaboration tools promote accountability among team members by facilitating transparent communication and providing clear visibility into tasks and progress.

Shared calendars and scheduling tools also help teams stay organized, manage deadlines, and coordinate activities effectively.

Collaboration tools enable team members to work together more efficiently, reducing redundancies and ensuring tasks are completed on time.

The image displays three overlapping screenshots of the Delta Monitoring software interface, illustrating its collaborative features. The top screenshot shows the 'Water and Sanitation Project' 'My Messages' interface, which includes a 'Compose Mail' form with fields for 'To (DELTA User)', 'To (External Email)', 'Cc (External Email)', and 'Subject'. A sidebar on the left lists folders like 'Inbox', 'Sent Mail', 'Important', 'Draft', 'Trash', and 'Signatures'. The bottom-left screenshot shows the 'Agenda' calendar for February 2025, with a grid view of dates. The bottom-right screenshot shows a 'Team Chatroom' with a message from 'DUMEL Line' dated Dec 8, 2020, and a text input field for sending messages. All screenshots feature a common blue sidebar with navigation icons and a top header with user profile and notification icons. Copyright notices for 'DELTA Monitoring' are visible at the bottom of the interface elements.
